Education

Purdue University

Aug 2015 - Dec 2019

- + Bachelor of Science in User Experience Design

Professional Experience

Purdue University

UX Consultant - College of Engineering | June 2019-Aug 2019

- + Worked under Professor Mohammaded Jahanshahi on TRASK project
- + Conducted usability testing on software for detecting structural damage
- + Analyzed insights from testing in order to inform re-designed mock-ups

Duke University

Web Design and Development Intern | June 2018-Aug 2018

- + Worked under Dr. Stefano Curtarolo at Duke's Center of Materials Genomics re-designing part of aflow.org - a high-throughput Materials Discovery Online Database
- + Iteratively sketched and wireframed an array of designs for possible implementation
- + Developed and implemented solution using HTML, CSS, C++

Project Experience

Multi-Twitch

UI/Interaction Designer | Jan 2019 - May 2019

- + Independently designed new feature for Twitch mobile and web platforms titled "Multi-Twitch" - feature allows viewers to watch/interact with multiple live Twitch streams at once seamlessly
- + Final deliverables included primary research on experienced Twitch users, and wireframes/prototypes of new feature implementation on Twitch platforms

ABB

Project Lead | Aug 2018 - Dec 2018

- + Served as Project Lead on a team of five members on industry sponsored project with ABB through Purdue's Experience Design Studio
- + Final project deliverables included in-depth research/insights on college campuses as an end user for REMS (renewable energy management system) and re-designed UI/UX for REMS
